

GENERAL ASSISTANCE AND MEDIKAN REVIEW REQUIREMENTS

IMPORTANT INFORMATION

You are due for a review of your General Assistance/medical eligibility. It is important for you to know that some medical coverage policies have changed:

- You must have applied for disability benefits at your local Social Security office if you want General Assistance/medical coverage to continue.
- You must provide verification you have applied for disability benefits
- If you do not have an active Social Security disability application, you will no longer be eligible for General Assistance/medical coverage.
- You may be eligible for additional health care coverage while Social Security decides whether you qualify for disability benefits.
- Your worker will refer you to a team that will collect your disability information. It is important for you to cooperate with this team if you want General Assistance/medical coverage to continue.
- Please bring the names and contact information of your medical providers when you meet with your worker.
- Resources that “count” when deciding whether you are eligible have changed. When you meet with your worker, please bring resource information such as life insurance, retirement accounts, property, vehicles, etc., with you.

Your worker will discuss all of these changes during your review. If you have someone that helps you with your paperwork, etc., please feel free to bring that person with you to the interview.

*Failure to complete the review process and comply with program **RULES** can result in your General Assistance or **Medical Assistance** eligibility ending. This is in accordance with Kansas Economic and Employment Support Manual Sections 1412, 2310 and 9700 and subsections.*

You have the right to request a fair hearing.
